... that is why we place great value on regional products.

## The restaurant "Zum Kassl"

### Regionality - Quality - Conscious Tirol

Three keywords that aptly describe our restaurant. The focus is always on our local farmers, who have been supplying us with their fresh products for years and give their best every day.

It is important to us to preserve Tyrolean tradition in our cuisine and to continually surprise our guests with culinary delights from the past. Being traditional, however, does not mean standing still, which is why we work every day to reinterpret our old recipes for you.

We have carefully selected exquisite wines from Austria and around the world for you and invite you to take your time and browse through them. Our service staff will be happy to assist you.

Otherwise, we hope that eating and drinking bring you as much pleasure as they do us, and we wish you a pleasant stay at the restaurant "Zum Kassl."

"Conscious Tirol" is the award for restaurateurs and hoteliers who increasingly focus on regional ingredients in their cuisine.
